
2025 Hughes Civic Assembly

Day 2 Presenter Information

Sunday, April 13 | 10:35 - 11:35am

Becca Windell, Warner College of Natural Resources

Becca is wildlife biologist presently working on her PhD at Colorado State University in the Department of Fish, Wildlife, and Conservation Biology. Her interests lie in studying animal behavior in response a variety of conservation and management challenges, including human-wildlife coexistence.

Key Takeaways

- Strengthen connection and access to the outdoors and nature
- Advocate for multiple, shared uses for people and wildlife
- Minimize disturbance to areas restored to support wildlife
