

# Civic Assembly on Youth Homelessness - Stakeholder Survey

The results of this survey will aid in providing thorough background information and well-balanced perspectives to support the work of the Deschutes Civic Assembly on Youth Homelessness.

They will be reviewed by a "Content Committee" of key Deschutes County stakeholders on this topic, which will make final decisions about the introductory information presented to the Assembly. Organizations, individuals, and documents nominated through this survey will also be provided directly to the Assembly as additional resources. The Assembly will use this "menu" of resources to invite additional presenters and visitors to assist the Assembly in making its policy recommendations.

Thank you in advance for your support of this landmark process in our region.

## Nominate: Organizations &amp; Individuals to Speak with the Assembly

**Please nominate up to 3 organizations or people who would be valuable for the Assembly to hear from.** (If you can't think of specifics, you may also suggest *types* of organizations or people.)

Just so you know: There are a number of opportunities during the Assembly when stakeholders, experts, and others will present to or work with the Assembly. These include (but are not limited to):

- Introductory background presentations related to the topic at hand.
- An invitational workshop, where small groups of Assembly members will rotate between a wide variety of visitors -- to gain more insight into what's most important to remember, what programs and policies are already in place, what's working (and not), and what ideas are yet be untried.
- Additional presentations and/or workshops at the Assembly's request, based on gaps and needs it identifies during the process.

Note that nominees can be local to Deschutes County or not. Plenty of local knowledge is vital, but sometimes people from other places can also add important perspectives or new ideas.
