

Renee Clough is a project manager at Branch Engineering, where she prepares land development applications in Eugene, Springfield and surrounding communities. Branch provides professional engineering consulting services to local residential, commercial, industrial, educational and government clients. Renee graduated from Oregon State in 2001 with a Civil Engineering degree and has licenses in Engineering and Land Surveying along with a Certification in Planning. She enjoys camping, reading, downhill skiing and playing Dungeons and Dragons with her husband and 14 year old daughter (plus their 2 cats, 1 bearded dragon and 4 cockatiels).
